TIKI REFLEX

3.7 4.2 4.7 5.2 5.7 6.2 6.8 7.6 8.5

TIKI | ADULT SAILS

Riding TIKI reflex is very smooth. This sail keeps speed even when the wind drops thanks to the deeper cut profile in the bottom and center area. Flat head with simple adjustment loose leech area helps to reduce drags and makes sailing stable and comfortable. It is an ideal choice for advanced beginners and freeriders who want to speed past their friends and leave them far behind.

All Round Wave

REFLEX 3.7 art nr: 4040

GENERATOR 6.8 art nr: 4065

GENERATOR 7.6 art nr: 4070

GENERATOR 8.5 art nr: 4080

SETS 15% CC mast, monocoque boom, uphaul extension, bag

REFLEX 3.7 art nr: 101440

REFLEX 4.2 art nr: 101442

REFLEX 4.7 art nr: 101445

REFLEX 5.2 art nr: 101450

IMPULSE 5.7 art nr: 101455

Soft feeling and the toughest materials. This is the clue of the best all round wave sail. Perfect stability after landing and in the air without backhand loading on top of the wave. Thanks to the luff curve adjustment you can easily release additional power by increasing the middle leech twist. The most radical and durable version wholly made from xply without any plain monofilm. That's why you can trust the reflex under any condition.

It offers great power and early planing similar to Generator but 70% of its surface is made from Xply which makes the sail tougher, more stable and much stronger. A great choice if you are looking for a durable sail.

It is designed to receive and redirect a huge power under full control of tubular battens and xply reinforced around the surface. The best choice for the new generation of wide freemove and freeride boards with extremely fast acceleration and early planing.

IMPULSE 6.2 art nr: 101460

GENERATOR 6.8 art nr: 101465

GENERATOR 7.6 art nr: 101470

GENERATOR 8.5 art nr: 101480
